# **Article 3**

## **3. Competition and match procedures**

### **3.1. Competition Management**

For each IHF event and the Olympic Games, a Competition Management shall be formed, which is generally chaired by the COC Chairperson. Members are the PRC Chairperson and the CCM Chairperson. In case of absence of certain members the Executive Committee nominates replacements before the start of the competition. In case a replacement is needed during the competition, the replacement is nominated by the Executive Committee or the highest ranked IHF Representative.

The Competition Management is responsible for the orderly management of the event, in close

cooperation with the organiser. It represents the first contact point for organisational issues. It gives advice and makes all the necessary decisions during the event, with the exception of disciplinary decisions. It is also responsible for the appointment of Officials, Technical Delegates and Referees.

In the venues where the Competition Management is not present the body delegates the aforementioned tasks to the responsible delegate (to be announced prior to the event, in IHF INFO if existing), who is supported by a member of the Head Office.

## **3.2. Team registration**

### **3.2.1. Eligibility**

The eligibility of a player to participate in an IHF event is subject to the rules of the IHF Player Eligibility Code. Players competing in the IHF Super Globe shall also meet further provisions, laid down in the corresponding section (**Fehler! Verweisquelle konnte nicht gefunden werden.**). Further, for the Olympic Games, all players taking part must comply with the provisions of the current IOC Olympic Charter and must be eligible to play for their national team as per IHF Regulations.

In case of any question regarding the eligibility of a player, the IHF Head Office (Legal Department) will decide if the player is entitled to participate.

#### **3.2.1.1. Nationality**

For proof of citizenship, players must present a passport of the country they will represent, which will be checked by the IHF Nominees at the technical meeting before the start of the competition. Further, the IHF Head Office examines the provisional list in accordance with IHF database.

Any player with more than one (1) nationality must have his/her eligibility confirmed by the IHF beforehand in accordance with article 6 of the IHF Player Eligibility Code.

In the registration process, the deadlines mentioned in article 6.4 of the IHF Player Eligibility Code must be duly respected or the participation of the concerned player will be subject to rejection.

#### **3.2.1.2. Age**

The minimum age of 16 is fixed for the participation in all IHF events and the Olympic Games, except the Youth World Championship where the minimum age is 15, meaning that players eligible to participate have to turn 16 or 15, respectively, on the day of their first match at the latest.

Even if a team has registered less than 35 players, the provisional list is final and cannot be changed once the deadline has expired.

The registration must include:

- a) Players with the following details: shirt number, surname, first name, club, date of birth, place of birth, nationality and additional nationality if applicable, gender, status, height, weight, throwing hand, main position, number of international matches, number of goals scored in international matches, naturalised status if applicable.
- b) Officials with the following details: surname, first name, date of birth, nationality, gender, function within the delegation and indication of the officials (by use of letters A, B, C, D, E, F)

The letters assigned to the officials cannot be changed after the technical meeting.

Teams participating in the Olympic Games shall also submit a provisional list according to IHF procedures, further requirements are laid down in the Olympic Games section (see V.1.4.1).

For all IHF events, if a team has registered less than the number of players allowed in the definitive list, it may register one (1) additional player during the competition.

### **3.2.4. Player and official replacements**

For all IHF events, each team may replace up to five (5) players at any time (e.g. each team may put in five (5) new players or may put in a player who has already been replaced once). Players may be replaced with players indicated in the provisional list only.

In case a suspended player is replaced by another player, the new player is only eligible to play after the suspension has lapsed.

Player replacements at the Olympic Games can only be done according to IOC regulations. IOC regulations in this regard have priority. Further information is laid down in the corresponding section (see V.1.4.2).

In exceptional cases the IHF Competition Management may allow the replacement of up to two officials during competition on request of the NF concerned (e.g. in case of serious health issues). In case such replacement takes place, the added official takes over the identification letter of the replaced official.

### **3.2.5. Procedures**

Player' registrations, late registrations and player replacements should be done through the Player Management Platform.

- Provisional list: two (2) months prior to the event. Exact date to be announced in the official announcement.
- Definitive list: one (1) hour before the technical meeting
- Late registration and player replacement: at 9.00 am on the respective match day at the latest on the platform, a proof of citizenship (passport) shall follow one (1) hour before the match at the latest

Further, in the registration process, teams may be asked to submit additional documents through the Player Management Platform.

## **3.3. Technical meeting**

A technical meeting with the team officials of the participating delegations, the organiser and the IHF Representatives shall be held at the beginning of the tournament. In this meeting, all necessary information will be provided and organisational, technical and financial issues can be settled. Furthermore, the definitive registration lists will be approved and the uniform colours will be determined for the preliminary round only in case of World Championships, Olympic Games and the Super Globe, and for the whole tournament in case of Olympic Qualification Tournaments. Further technical meetings may be held if required.

Representatives of all team delegations must attend the technical meeting.

The match shall be under the IHF Official's full supervision.

One (1) IHF Official and two (2) IHF Technical Delegates shall form the Match Management together with the timekeeper and scorekeeper appointed by the organiser, at least one (1) of whom shall be fluent in English. The announcer shall be seated near the table.

#### **3.4.2. Official match report**

- Match squad

A total of 16 players and up to five (5) officials per match may be entered on the official match report. Those players and officials composing the match squad have to be selected from the definitive registration list consisting of 18 players and six (6) officials through the Player Management Platform one (1) hour before the start of the match at the latest.

The match squad cannot be changed in any case once the deadline has expired.

If a team fails to submit its match squad within the stipulated deadline, the first 16 players, by numerical order, and the first five (5) officials, by letter, of the definitive list will be considered as match squad.

In case there is any suspension of players or officials, the total number of players and officials entitled to be selected in the match squad and featured in the official match report shall be reduced accordingly.

For the walk in and the presentation before the start of the match, players are requested to line up in numerical order with the team captain coming first after the country's flag and all other players follow in ascending numerical order (1-99). This order needs to be maintained during the presentation of the players and the national anthems.

Alternatively, teams may set up an individual order. Should this be the case, a corresponding list needs to be submitted through the Player Management Platform, providing exact information in which order the players will line-up. The same order needs to be maintained throughout the tournament. In case of replacements, the list needs to be updated by the respective federation.

During the whole pre-match procedure, team officials listed on the match report must stay at their team's bench, players must maintain a respectful behaviour, especially during their opponent's anthem. In case they called two (2) team time-outs in the first half, they receive only green card no. 3.

#### Electronic devices

If an IHF approved electronic system is used, each team can request the team time-out directly through pushing a button on an electronic device.

### **3.6.4. Electronic communication**

The use of any form of electronic communication by team officials is permitted where it directly relates to player welfare or safety or for tactical/coaching reasons but only small, mobile, hand-held equipment (e.g. microphone, headphones, ear-piece, smartwatch, tablet, laptop) may be used. Federations taking part in IHF events are obliged to insure all delegation members, i.e. all players and all officials, against accident and sickness at their own cost. The organiser and the IHF shall not be held liable for any accidents that occur or any sickness unless the IHF has concluded a corresponding insurance.

### **7.3.2. Additional days**

For IHF events, the arrival day is generally one (1) day prior to the first match and the departure day one (1) day after the last match of the corresponding team.

In agreement and in coordination with the organiser, participating teams may arrive earlier or leave later with the right to use all team services, if they bear the additional costs (daily rate) themselves for all participants as fixed by the organiser – and confirmed by the IHF - and published in the official announcement, or, for younger age categories, the daily rate fixed by the Council. The option of arriving earlier or leave later is limited to three (3) days prior and two (2) days after the official event period.

Participating teams may deviate from the above provisions. In this case, they have to make corresponding arrangements at their own responsibility and costs but with the obligation to inform the IHF and the organiser accordingly.

The participating teams shall announce their date and place of arrival to the IHF and to the organiser in due time prior to the event and as laid down in the respective official announcement.

Additional days must be paid and settled directly with the organiser and not with the IHF.

## **7.4. Team services**

Additional team services besides the provisions laid down in these regulations are subject to extra costs and agreement with the organiser.

### **7.4.1. Delegation size**

During an IHF event, the delegation entitled to compete is composed of 24 persons; 18 players and 6 officials. Additionally, each National Federation has the right to increase its delegation to the maximum number of 30 persons. However, the organiser may decide to allow each participating team to increase the number of delegation members. The maximum limit will be communicated to the teams in the official announcement.

Costs incurred for each delegation member are borne by the participating teams or the organiser, according to the provisions laid down in each competition section.

The participating teams shall announce their delegation size (total number of players and staff members travelling with the delegation) to the IHF and the organiser in due time prior to event and as laid down in the respective official announcement. If officially registered by the corresponding National Federation and the conditions and requirements outlined by the organiser have been respected, all delegation members shall have the same rights and duties.

#### **7.4.2. Accommodation**

In general, players are accommodated in double rooms and officials in single rooms. One of the single rooms will have a bigger size to be used by the physiotherapist. Alternatively, a separate room will be offered.

Internet access free of charge shall be available in the rooms.

Rooms shall be available from 3:00 pm at the latest on arrival day and rooms shall be left on departure day by 11:00 am.

On arrival day, the first meal teams are entitled to have as part of the team services is lunch. On departure day, the last meal teams are entitled to have as part of the team services is breakfast.

Please refer to the sections of the individual events for more details.

## II. Men's and Women's World Championships

### Article 1

#### 1. Qualifications and entries

##### 1.1. Participants

##### 1.1.1. Number of participants

The number of participants at Men's and Women's World Championships shall be 32 teams. The IHF Council shall decide on special cases.

##### 1.1.2. Distribution of compulsory places and performance places

Organiser <sup>1</sup>	1
Reigning World Champion <sup>2</sup>	1
Performance places for the Continental Confederations Based on teams ranked 1-12 of the preceding world championship	12
Compulsory places - Africa - Asia - Europe - North America and the Caribbean - South and Central America - Oceania <sup>3</sup>	17 - 4 - 4 - 4 - 1 - 3 - 1
Wild card <sup>4</sup>	1

<sup>1</sup>All hosting federations are automatically entitled to take part in the World Championship. If there is more than one (1) organiser from the same Continental Confederation, the number of compulsory places of the respective Continental Confederation shall be reduced accordingly. If there is more than one (1) organiser and the organisers are not from the same Continental Confederation, the IHF Council shall decide about the reduction of the compulsory places, considering only the compulsory places of the Continental Confederations involved.

<sup>2</sup>The reigning World Champion automatically qualifies for the next World Championship and, as a rule,

is placed first in the first performance row. In case the reigning World Champion is also hosting the next World Championship, the Continental Confederation of the reigning World Champion obtains one additional performance place.

<sup>3</sup>The compulsory place for Oceania is subject to fulfilling certain conditions (see II.1.1.3).

<sup>4</sup>The wild card shall be awarded by the IHF Council.

The distribution of the compulsory places shall be evaluated after the respective events by the IHF with the right to amend for the next-but-one event in order to ensure a high quality of World Championships.

### **1.1.3. Conditions to receive the compulsory and performance places**

In order to receive the compulsory and performance places based on the result of the preceding World Championship and the principles mentioned under II.1.1.2, the Continental Confederations shall fulfil certain conditions.

The Continental Confederation of Oceania does not have a direct compulsory place for a Continental Confederation qualification event. The Continental Confederation of Oceania is invited to participate in the Asian qualification events. The compulsory place is awarded to Oceania if the representative from Oceania is ranked 5<sup>th</sup> or higher in the Asian qualification. If Oceania fails to rank 5<sup>th</sup> or does not participate, the IHF Council will award this place as a free wild card.

For the other Continental Confederations, the following conditions apply:

- a) At least
  - four (4) teams must take part in the qualification events of Continental Confederations which have one (1) or two (2) compulsory places.
  - six (6) teams must take part in the qualification events of Continental Confederations which have three (3) compulsory places.
  - eight (8) teams must take part in the qualification events of Continental Confederations which have four (4) compulsory places.
- b) If the total number of compulsory and performance places for a Continental Confederation is higher than four (4), the minimum number of participating teams in the qualifying round must be at least twice the number of places.
- c) In case the number of teams taking part in the qualification is less than the requirements specified in a) and b), the maximum number of places a Continental Confederation is entitled to receive is half the number of participating teams (rounded down in case of uneven number).
- d) In case of c), the first place that has to be reassigned is awarded to the Continental Confederation of the reigning World Champion which shall award the place in accordance with performance criteria. In case the Continental Confederation of the World Champion is the Continental Confederation whose places have been reduced, the first place is awarded to the

2<sup>nd</sup> best ranked Continental Confederation at the previous World Championship. If more than one place needs to be reassigned, all other places shall be awarded as wild cards by the IHF Council.

- e) Further, in case of d), the places to be removed shall be the lowest in the performance rows, meaning that first the compulsory places shall be removed and then the performance places of the respective Continental Confederation.

#### **1.1.4. Competitive clause**

To participate in IHF World Championships a certain performance level of the qualified team is obligatory. In case the competitive capability of a qualified team is disputable and the difference in performance level between the country in question and the other qualified teams is too large, the IHF Council reserves the right to re-award this place as a wild card to a country that meets the corresponding competitive requirements in order to strengthen and protect the IHF World Championship product. In such cases, an in-depth analysis has to be carried out by the respective IHF Commissions (COC, CCM). In addition, the current performance as well as the IHF ranking and the performance at previous IHF events will be taken into consideration when evaluating the performance level of the respective team. Therefore, the IHF bodies will issue performance reports about all participating teams immediately after the end of the respective World Championship.

### **1.2. Qualification**

#### **1.2.1. Continental qualifications**

The IHF owns the rights to World Championship qualifications. As laid down in the IHF Statutes, qualifying shall be through the Continental Confederations (with the exception of the organiser and the reigning World Champion) according to clearly regulated performance criteria and other necessary regulations defined by the Continental Confederations and approved by the IHF.

Continental Confederations must announce their qualification system as well as the dates to the IHF no later than 12 months before the World Championship.

Continental Confederations shall give a binding agreement to accept the places available to them three (3) months after the World Championship where the performance and compulsory places for the next event have been defined at the latest.

Upon completion of qualifications, the Continental Confederations are obliged to inform the IHF Head Office within one (1) week about the ranking, the teams qualified and the substitute nations.

#### **1.2.2. Dates**

As a matter of principle, continental qualifying rounds for Men's and Women's World Championships must be completed no later than six (6) months before the start of the World Championships.

The Continental Confederations shall include their qualifying rounds in the IHF calendar. Continental championships, which are qualification events for World Championships, and/or the qualification events should be held during the IHF national team weeks defined in the IHF world calendar. In exceptional cases the IHF Executive Committee may decide about deviations therefrom.

### **1.2.3. Confirmation of participation for teams**

The reigning World Champion shall give a binding agreement to accept the place open to them three (3) months after the World Championship where the performances and compulsory places for the next event have been defined at the latest.

Teams participating in the qualification events are committed to participate in the respective World Championship in case qualified.

All qualified federations have to confirm their participation in Men's and Women's World Championships. Further, the participating nations shall confirm that the players of their national team enjoy good health so that they are physically fit to compete in the World Championship. For that purpose, the players to compete in the World Championship shall undergo a medical examination in advance in order to receive a certificate of health.

The confirmation of participation and health status of the players shall be submitted through the Player Management Platform.

### **1.2.4. Non-appearance**

If a Continental Confederation does not use its performance or compulsory places, the IHF Executive Committee shall decide on the reallocation of such places.

If the team of a federation that has qualified for the World Championship does not take part, the IHF Executive Committee shall decide on a substitute nation.

### 1.3. Draw

#### 1.3.1. Performance rows

1	World Champion	Performance Place 1	Performance Place 2	Performance Place 3	Performance Place 4	Performance Place 5	Performance Place 6	Performance Place 7
2	Performance Place 8	Performance Place 9	Performance Place 10	Performance Place 11	Performance Place 12	Organiser	Compulsory Place 1	Compulsory Place 2
3	Compulsory Place 3	Compulsory Place 4	Compulsory Place 5	Compulsory Place 6	Compulsory Place 7	Compulsory Place 8	Compulsory Place 9	Compulsory Place 10
4	Compulsory Place 11	Compulsory Place 12	Compulsory Place 13	Compulsory Place 14	Compulsory Place 15	Compulsory Place 16	Compulsory Place 17	Wild Card

The allocation of the performance and compulsory places to the Continental Confederations is done in accordance with the ranking of the Continental Confederations at the previous World Championship of the same gender.

In case the number of places for a Continental Confederation is reduced, the places to be removed shall be the lowest in the performance rows (see II.1.1.3 and II.1.2.4).

The teams will be assigned the corresponding places according to the qualifications on continental level. The Continental Confederations will inform the IHF – based on the performance criteria at their qualification – which place will be allocated to which qualified team.

As a rule, the organiser will be allocated the first place behind the performance places. Should the organiser achieve a better place as a result of the previously staged World Championship, it will be allocated the corresponding performance place. The organiser is entitled to be assigned to the respective higher continental performance place in case a better position has been reached at the continental qualification event, then it will be seeded on this performance place. In case the organiser is the reigning World Champion, it is placed first in the first performance row. In all these cases, the first place behind the performance places is then allocated to the Continental Confederation of the organiser.

In case of more than one (1) organiser, the hosting federations will be allocated the places behind the performance places if the above criteria do not apply. In this case, the order of the multiple organisers is determined based on the result of the preceding World Championship. If this is not possible, the IHF COC shall decide on the order. If the above criteria apply, the same principles shall be followed.

Further, special rights are granted to the organiser(s) in relation to the draw procedure (see II.1.3.2).

The IHF COC confirms the final allocation of qualified teams to the performance rows as announced by the Continental Confederations based on performance criteria. The draw generally takes place after completion of all continental qualifying rounds.

### **1.3.2. Procedure**

The draw, held by the IHF (COC), shall be in compliance with the performance criteria. The organiser shall have a free choice of its preliminary round group within its performance row. In this case, the organiser's performance row is drawn last, after the other rows which are drawn from the lowest to the highest.

Alternatively, the organiser may submit a request to the IHF to assign one (1) team (including the organiser's team) per group which had previously been assigned to a city. In this case, the 4<sup>th</sup> performance row is drawn first, followed by the 3<sup>rd</sup> and the 2<sup>nd</sup>, and the 1<sup>st</sup> row is drawn last.

In the case of more than one (1) host nation, the organiser shall assign one (1) team per group, which had previously been assigned to a city, including the teams of the host nations.

### **1.3.3. Organisation**

Technical and organisational details regarding the draw event are laid down in the IHF Bid and Event Manual.

## **1.4. Fees**

The participants have to pay a deposit and a registration fee to the IHF. Details hereto are laid down in the respective section (see II.6). If the deadlines are not met, qualification shall lapse. In such a case, article II.1.2.4 shall apply.

# **Article 2**

## **2. Competition system**

### **2.1. Dates**

Men's and Women's World Championships shall take place in odd years.

The IHF COC shall fix the exact dates of the competitions with the following periods being set:

- Men: 2<sup>nd</sup> half of January (ending 2 February at the latest)

- Women: 28 November – 22 December

The IHF Executive Committee shall finalise and confirm the dates of the tournament before the corresponding announcement is drawn up.

## 2.3. Match evaluation and determination of places

### 2.3.1. Preliminary round, main round, President's Cup

The preliminary round, main round and President's Cup are played in groups. The matches shall be evaluated as follows:

- each match won = 2 points
- each match drawn = 1 point for each team

- each match lost = no points

Teams are ranked according to the total number of points gained.

For the main round, only those results from the preliminary round are taken into consideration that were obtained against teams that also qualified for the main round. This means that points achieved as well as goals scored and conceded against these teams are carried over from the preliminary round to the main round.

If two (2) or more teams have gained the same number of points after the group matches have been completed, their ranking is decided based on the following:

- results in points between the teams concerned
- goal differences in the matches between the teams concerned
- greater number of goals scored in the matches between the teams concerned

If the teams are still equal, a decision is made between those teams with equal number of points as follows:

- goal difference is subtracted in all matches
- greater number of goals scored in all matches

If a ranking is still not possible, a drawing of lots shall decide. The IHF representative on site shall execute the drawing of lots, if possible in the presence of the responsible team officials. If the responsible team official cannot be present, another representative to be selected by the IHF shall take part.

### **2.3.2. Placement matches, quarter-finals, semi-finals and finals**

The placement matches (25-32 and 5-8 if applicable), quarter-finals, semi-finals and finals shall be played in a knock-out system.

For the placement matches of the President's Cup (25-32), in case of a draw at the end of the regular playing time, a direct 7 m shoot-out shall be used to determine a winner in accordance with rule 2:2 of the Rules of the Game.

For the other matches, overtime is played following a 5-minute break, if a match is tied at the end of the regular playing time. The overtime period consists of two (2) halves of five (5) minutes, with a 1-minute half-time break.

If the match is again tied after the first overtime period, a second period is played after a 5-minute break. This overtime period also consists of two (2) halves of five (5) minutes, with a 1-minute half-time break. Should the match still not be decided after the second overtime period, the winner is determined through a 7 m shoot-out in accordance with rule 2:2 of the Rules of the Game.

The IHF COC has the right to decide that the winner of certain matches that end in a draw will be determined through a direct 7 m shoot-out in accordance with rule 2:2 of the Rules of the Game. If this rule applies, the decision will be published in the official announcement or together with the match schedule.

### **2.3.3. Teams ranked 9<sup>th</sup>-24<sup>th</sup>**

Teams ranked 3<sup>rd</sup> in each main round group will be ranked 9<sup>th</sup> to 12<sup>th</sup>. Teams ranked 4<sup>th</sup> in each main round group will be ranked 13<sup>th</sup> to 16<sup>th</sup>. Teams ranked 5<sup>th</sup> in each main round group will be ranked 17<sup>th</sup> to 20<sup>th</sup>. Teams ranked 6<sup>th</sup> in each main round group will be ranked 21<sup>st</sup> to 24<sup>th</sup>.

Determination of these places is done by calculation according to the following evaluation criteria:

- a) Number of points gained.
- b) In case of equal number of points, the goal difference in the main round shall decide.
- c) In case of equal number of points and the same goal difference, the greater number of goals scored in the main round shall decide.
- d) If teams are still equal, number of points gained in the preliminary round shall be considered followed by the goal difference in the preliminary round and then the greater number of goals scored in the preliminary round.
- e) If ranking is not possible according to items a)-d), the decision shall be made by drawing lots.

### **2.3.4. Teams ranked 5<sup>th</sup>-8<sup>th</sup>**

If placement matches 5-8 are not played, the ranking of losers of the quarter-finals is done by calculation according to the following evaluation criteria:

- a) The ranking will be done according to the places of the main round. If two (2) or more teams were ranked on the same place in the main round, the number of points gained in the main round will decide.
- b) In case of equal number of points, the goal difference in the main round shall decide.
- c) In case of equal number of points and the same goal difference, the greater number of goals scored in the main round shall decide.
- d) If teams are still equal, number of points gained in the preliminary round shall be considered followed by the goal difference in the preliminary round and then the greater number of goals scored in the preliminary round.
- e) If ranking is not possible according to items a)-d), the decision shall be made by drawing lots.

## **2.4. Match schedule**

### **2.4.1. Establishing principles**

A team shall not play on consecutive days, i.e. each team has at least one (1) rest day between two (2) matches.

A day with a travel duration of 4 hours and 30 minutes or less shall be considered as rest day. In case the travel duration exceeds that amount of time, an additional rest day is required, unless authorised by a decision from the relevant IHF bodies or the IHF Head Office for special cases.

On request of media, TV or other international bodies, the IHF COC may decide on an alternative schedule, following the above-mentioned principles. For instance, an opening match could be held on day 0. A different allocation of teams to compose the main round and President's Cup groups or a different pairing of teams in the match scheme may be implemented. This allocation shall be determined before the draw and the teams shall be informed accordingly.

The throw-off times shall be fixed by the IHF in conjunction with the organiser and the TV rights holder. The IHF is the final decision-making body and reserves the right to change the throw-off times at any time if need be.

## 2.4.2. Day-by-day schedule

The following day-by-day schedule serves as a principle guideline. Depending on the draw, the competition may start with day 1 of the preliminary round for groups E to H.

## Article 3

### 3. Protocol, awards and ceremonies

#### 3.1. Opening and closing ceremonies

At Senior World Championships, opening and closing ceremonies shall take place. The teams participating in the following or preceding matches are not obliged to participate in those ceremonies. However, the organisation of those ceremonies may result in the modification of the pre-match or post-match procedures. If this should be the case, teams will be informed accordingly in the official announcement or the IHF INFO. The IHF shall confirm the concept for the opening and closing

ceremonies.

## **3.2. Pre-match and post-match procedures**

### **3.2.1. Pre-match and post-match procedures**

## Article 1

### 1. Qualifications and entries

#### 1.1. Participants

##### 1.1.1. Number of participants

The number of participants at World Championships shall be 32 teams. The IHF Council shall decide on special cases.

##### 1.1.2. Distribution of compulsory places and performance places

Organiser <sup>1</sup>	1
Performance places for the Continental Confederations Based on teams ranked 1-12 of the preceding world championship	12
Compulsory places - Africa - Asia - Europe - North America and the Caribbean - South and Central America - Oceania	18 - 4 - 4 - 4 - 2 - 3 - 1
IHF Trophy winner	1

<sup>1</sup>All hosting federations are automatically entitled to participate in the World Championship. If there is more than one (1) organiser from the same Continental Confederation, the number of compulsory places of the respective Continental Confederation shall be reduced accordingly. If there is more than one (1)

organiser and the organisers are not from the same Continental Confederation, the IHF Council shall decide about the reduction of the compulsory places, considering only the compulsory places of the Continental Confederations involved.

The distribution of the compulsory places shall be evaluated after the respective events by the IHF with the right to amend for the next-but-one event in order to ensure a high quality of World Championships.

### **1.1.3. Conditions to receive the compulsory and performance places**

In order to receive the compulsory and performance places based on the result of the preceding World Championship and the principles mentioned under III.1.1.2, the Continental Confederations shall fulfil the following conditions:

- a) At least
  - four (4) teams must take part in the qualification events of the Continental Confederations which have one (1) or two (2) compulsory places.
  - six (6) teams must take part in the qualification events of the Continental Confederations which have three (3) compulsory places.
  - eight (8) teams must take part in the qualification events of the Continental Confederations which have four (4) compulsory places.
- b) If the total number of compulsory and performance places for a Continental Confederation is higher than four (4), the minimum number of participating teams in the qualifying round must be at least twice the number of places.
- c) In case the number of teams taking part in the qualification is less than the requirements specified in a) and b), the maximum number of places a Continental Confederation is entitled to receive is half the number of participating teams (rounded down in case of uneven number).
- d) In case of c), the first place that has to be reassigned is awarded to the Continental Confederation of the reigning World Champion which shall award the place in accordance with performance criteria. In case the Continental Confederation of the World Champion is the Continental Confederation whose places have been reduced, the first place is awarded to the 2<sup>nd</sup> best ranked Continental Confederation at the previous World Championship. If more than one place needs to be reassigned, all other places shall be awarded as wild cards by the IHF Council.
- e) Further, in case of d), the places to be removed shall be the lowest in the performance rows, meaning that first the compulsory places shall be removed and then the performance places of the respective Continental Confederation.

## **1.2. Qualification**

### **1.2.1. Continental qualifications**

The IHF owns the rights to World Championship qualifications. As laid down in the IHF Statutes,

qualifying shall be through the Continental Confederations (with the exception of the organiser) according to clearly regulated performance criteria and other necessary regulations defined by the Continental Confederations and approved by the IHF.

Continental Confederations must announce their qualification system as well as the dates to the IHF no later than 12 months before the World Championship.

Continental Confederations shall give a binding agreement to accept the places available to them three (3) months after the World Championship where the performance and compulsory places for the next event have been defined at the latest.

Upon completion of qualifications, the Continental Confederations are obliged to inform the IHF Head Office within one (1) week about the ranking, the teams qualified and the substitute nations.

### **1.2.2. Dates**

As a matter of principle, continental qualifying rounds must be completed no later than three (3) months before the start of the World Championship.

The Continental Confederations shall include their qualifying rounds in the IHF calendar. Continental championships, which are qualification events for World Championships, and/or the qualification events, should be held during the IHF national team weeks defined in the IHF world calendar. In exceptional cases the IHF Executive Committee may decide about deviations therefrom.

### **1.2.3. Confirmation of participation for teams**

Teams participating in the qualification events are committed to participate in the respective World Championship in case qualified.

All qualified federations have to confirm their participation in the World Championships. Further, the participating nations shall confirm that the players of their national team enjoy good health so that they are physically fit to compete in the World Championship. For that purpose, the players to compete in the World Championship shall undergo a medical examination in advance in order to receive a certificate of health.

The confirmation of participation and health status of the players shall be submitted through the Player Management Platform.

### **1.2.4. Non-appearance**

If the team of a federation that has qualified for the World Championship does not take part, the first

substitute nation of the Continental Confederation in question shall take that place. If the first substitute nation does not take part, the second substitute nation shall take the place. If the second substitute nation does not take part either, the following shall apply:

- If the Continental Confederation in question is the Continental Confederation of the reigning World Champion, the IHF Executive Committee shall decide.
- If the Continental Confederation in question is another Continental Confederation, the place will be allocated to the Continental Confederation of the reigning World Champion, which will then announce the substitute nation. If the first substitute nation does not take part, the second substitute nation shall take the place. If the second substitute nation does not take part either, the IHF Executive Committee shall decide.

### 1.3. Draw

#### 1.3.1. Performance rows

1	Performance Place 1	Performance Place 2	Performance Place 3	Performance Place 4	Performance Place 5	Performance Place 6	Performance Place 7	Performance Place 8
2	Performance Place 9	Performance Place 10	Performance Place 11	Performance Place 12	Organiser	Compulsory Place 1	Compulsory Place 2	Compulsory Place 3
3	Compulsory Place 4	Compulsory Place 5	Compulsory Place 6	Compulsory Place 7	Compulsory Place 8	Compulsory Place 9	Compulsory Place 10	Compulsory Place 11
4	Compulsory Place 12	Compulsory Place 13	Compulsory Place 14	Compulsory Place 15	Compulsory Place 16	Compulsory Place 17	Compulsory Place 18	IHF Trophy Winner

The allocation of the performance and compulsory places to the Continental Confederations is done in accordance with the ranking of the Continental Confederations at the previous World Championship of the same gender and category.

In case the number of places for a Continental Confederation is reduced, the places to be removed shall be the lowest in the performance rows (see III.1.1.3).

The teams will be assigned the corresponding places according to the qualifications on continental level. The Continental Confederations will inform the IHF – based on the performance criteria at their qualification – which place will be allocated to which qualified team.

As a rule, the organiser will be allocated the first place behind the performance places. Should the organiser achieve a better place as a result of the previously staged World Championship, it will be allocated the corresponding performance place. The organiser is entitled to be assigned to the respective higher continental performance place in case a better position has been reached at the continental qualification event, then it will be seeded on this performance place. In case the organiser is

the reigning World Champion, it is placed first in the first performance row. In all these cases, the first place behind the performance places is then allocated to the Continental Confederation of the organiser.

In case of more than one (1) organiser, the hosting federations will be allocated the places behind the performance places if the above criteria do not apply. In this case, the order of the multiple organisers is determined based on the result of the preceding World Championship. If this is not possible, the IHF COC shall decide on the order. If the above criteria apply, the same principles shall be followed.

Further, special rights are granted to the organiser(s) in relation to the draw procedure (see III.1.3.2).

The IHF COC confirms the final allocation of qualified teams to the performance rows as announced by the Continental Confederations based on performance criteria. The draw generally takes place after completion of all continental qualifying rounds.

### **1.3.2. Procedure**

The draw, held by the IHF (COC), shall be in compliance with the performance criteria. The organiser shall have a free choice of its preliminary round group within its performance row. In this case, the organiser's performance row is drawn last, after the other rows which are drawn from the lowest to the highest.

Alternatively, the organiser may submit a request to the IHF to assign one (1) team (including the organiser's team) per group which had previously been assigned to a city. In this case, the 4<sup>th</sup> performance row is drawn first, followed by the 3<sup>rd</sup> and the 2<sup>nd</sup>, and the 1<sup>st</sup> row is drawn last.

In the case of more than one (1) host nation, the organiser shall assign one (1) team per group, which had previously been assigned to a city, including the teams of the host nations.

### **1.3.3. Organisation**

Technical and organisational details about the draw event are laid down in the IHF Bid and Event Manual.

## **1.4. Fees**

The participants have to pay a deposit and a registration fee to the IHF. Details hereto are laid down in the respective section (see III.6). If the deadlines are not met, qualification shall lapse. In such a case, article III.1.2.4 shall apply.

The preliminary round, main round and President's Cup are played in groups. The matches shall be evaluated as follows:

- each match won = 2 points
- each match drawn = 1 point for each team
- each match lost = no points

Teams are ranked according to the total number of points gained.

For the main round as well as the President's Cup, only those results from the preliminary round are taken into consideration that were obtained against teams that also qualified for the main round or the President's Cup. This means that points achieved as well as goals scored and conceded against these teams are carried over from the preliminary round to the main round or the President's Cup.

If two (2) or more teams have gained the same number of points after the group matches have been completed, their ranking is decided based on the following:

- results in points between the teams concerned
- goal differences in the matches between the teams concerned
- greater number of goals scored in the matches between the teams concerned

If the teams are still equal, a decision is made between those teams with equal number of points as follows:

- goal difference is subtracted in all matches
- greater number of goals scored in all matches

If a ranking is still not possible, a drawing of lots shall decide. The IHF representative on site shall execute the drawing of lots, if possible in the presence of the responsible team officials. If the responsible team official cannot be present, another representative to be selected by the IHF shall take part.

### **2.3.2. Placement matches, quarter-finals, semi-finals and finals**

The placement matches (5-8, 9-16, and 17-32), quarter-finals, semi-finals and finals shall be played in a knock-out system.

For the placement matches, in case of a draw at the end of the regular playing time, a direct 7 m shoot-out shall be used to determine a winner in accordance with rule 2:2 of the Rules of the Game.

For the other matches, overtime is played following a 5-minute break, if a match is tied at the end of the regular playing time. The overtime period consists of two (2) halves of five (5) minutes, with a 1-minute half-time break.

If the match is again tied after the first overtime period, a second period is played after a 5-minute break. This overtime period also consists of two (2) halves of five (5) minutes, with a 1-minute half-time break. Should the match still not be decided after the second overtime period, with the winner is determined through a 7 m shoot-out in accordance with rule 2:2 of the Rules of the Game.

The IHF COC has the right to decide that the winner of certain matches that end in a draw will be determined through a direct 7 m shoot-out in accordance with rule 2:2 of the Rules of the Game. If this rule applies, the decision will be published in the official announcement or together with the match schedule.

## **2.4. Match schedule**

### **2.4.1. Establishing principles**

Every team shall have a break of at least 20 hours between the throw-off times of one match and another.

A day with a travel duration of 4 hours and 30 minutes or less shall be considered as rest day. In case the travel duration exceeds that amount of time, an additional rest day is required, unless authorised by a decision from the relevant IHF bodies or the IHF Head Office for special cases.

On request of media, TV or other international bodies, the IHF COC may decide on an alternative schedule, following the above-mentioned principles. For instance, an opening match could be held on day 0. Different rest days in the respective groups may be determined and placement matches may be adapted to different days. A different allocation of teams to compose the main round and President's Cup groups or a different pairing of teams in the match scheme may be implemented. This allocation

shall be done before the draw and the teams shall be informed accordingly.

The throw-off times shall be fixed by the IHF in conjunction with the organiser and the TV rights holder. The IHF is the final decision-making body and reserves the right to change the throw-off times at any time if need be.
